- analytical and problem-solving skills
- team collaboration skills
- learn new technologies

Expertise

Professional Summary

Dedicated Computer Science graduate with 3+ years of hands-on experience in full-stack web development, specializing in backend and frontend technologies. Proven track record of developing scalable web applications using Laravel, Node.js (Express.js), React, and database management systems. Seeking to leverage technical expertise and project experience as a Full-Stack Web Application Developer.

Work Experience

Sep 2025 - Dec 2025

- Worked as a Database Instructor | AIT (Afghan Institutes of Technology).**
 - Instructed students on relational database design, SQL programming, and database administration concepts. Developed course materials and practical exercises.

2021 - 2022

- Software Development Intern | Elitevalley Software Development Company**
 - Gained hands-on experience in software development lifecycle and best practices
 - Participated in code reviews and collaborative development processes
 - Contributed to web application development projects using modern frameworks
 - Learned industry-standard version control and agile development methodologies

Education

- Bachelor's in Computer Science | Kabul University Software Engineering Department
- Habibia High School
- Diploma in English Language (DEL) | TTC Center

| Projects and Certifications

- **Etifaq Computer Store Management System**
 - **Laravel, MySQL, Vue.js**
 - Designed the database schema to handle complex operations (cargo shipment, people management, sales, purchases, warehouse, and financial accounts) of the Etifaq computer store.
 - Built and deployed the backend system with Laravel.
 - Collaborated with a teammate who developed the frontend in Vue.js.
- **Smart book – Full Stack Version**
 - **Laravel, React.js, MySQL**
 - Rebuilt and enhanced the system to cover both backend and frontend development.
 - Led the full-stack development lifecycle, integrating Laravel APIs with React.js frontend.
 - Delivered features for inventory, sales, purchase tracking, warehouse management, and customer accounts.
- **Footsal Gymnasium Management System — EliteValley Software Company**
 - **Laravel, MySQL, vue.js**
 - Designed and implemented the complete backend system from scratch.
 - Planned and modeled the database structure to ensure scalability and efficiency.
 - Developed core features such as user management, reservations, and reporting.`

| Skills

- Frontend Technologies:
 - React.js, HTML5, CSS3, JavaScript (ES6+)
- Backend Technologies:
 - Laravel (PHP framework)
 - Node.js (Express.js)
 - RESTful API development and integration
- Database Management:
 - MySQL database design and optimization
 - Database integration and data modeling
- Development Tools:
 - Docker
 - Postman
 - Version control (Git)
